

NOTES FOR EXERCISES IN SESSION 14

- home assignment IV returned, and marks prior to final exam totalled with/without midterm (recall: you need to decide and tell me by Monday!),
- exam2010:1-3 — with (limited) handouts; (exam2011:1,3; exam2012:3; exam2013:1,3; exam2015; exam2016; exam2018)
- all questions and solutions accessible from course homepage (solutions at the homepage for corresp. year),
- any requests for review topics or questions?
- any additional review of exam questions?
- maybe you'd want to show some “highlights” from the papers you've reviewed?

Notes and questions for specific exercises:

- no analyses by Minitab today!
- previous years' home assignments can also be useful:
I \sim descr. stats, II \sim t -tests, III \sim two-way tables.

Evaluation forms: (instructor's)

Please complete, and return to me no later than Dec 21 (after the exam is marked is perfectly fine, **I won't look at them before anyway**).
